Loyalty

Manage settings for your Retail POS Loyalty program. [Need help?](#)

Earning percentage

Choose how much Loyalty customers earn as a percentage of the retail price of every sale in-store and through Lightspeed eCom (E-Series).

Loyalty earned per sale

2.00 %

With this percentage, a customer will earn 2.00 \$ Loyalty on a \$100.00 sale

Redemption settings

Set the requirements to redeem Loyalty.

☐ Set redemption minimum

Customers can redeem Loyalty once they meet the minimum balance

Sign-up

Set up a sign-up bonus and welcome email for new Loyalty customers.

☐ Set sign-up bonus

Customers will receive a Loyalty bonus once they confirm their details in the [Loyalty sign-up form](#). New customers can access the form in a welcome email and guest customers can access the form using a link or QR code on the sale receipt.

☐ Send welcome email

A welcome email with a [Loyalty sign-up form](#) will be sent to new customers. Once customers fill out the form, they will receive a sign-up bonus.

Expiry

Set an expiry policy to reward loyal customers and maintain your liability. [Examine liability](#) of customer Loyalty balances to choose a policy that suits your needs. Ensure your Loyalty expiry policy complies with relevant local consumer regulations.

No expiry

Customer Loyalty balances do not expire.

Expiry based on last purchase date

Customer Loyalty balances will expire after a specified period of time if they don't make a purchase where Loyalty is earned or redeemed.
